## THE REAL ADVANTAGE OF A THERMOSASH SOLUTION IS WHAT YOU DON'T SEE

Behind a Thermosash integrated total clad solution beholds 41 years of façade engineering, laboratory testing and assurance of durability, buildability weathertightness and seismic resilience.

Our curtainwalls, unitised panels, commercial windows, shop fronts, ACM cladding, and integrated solar shading are not approached as pieces and parts, instead we collaborate with the design teams to create a specifically designed prefabricated unitised suite – engineered, independently tested, locally manufactured, glazed and installed – all since 1973.

Made right here - your New Zealand design and manufacture solution partner.
