

Project: AUT M1 | Main Contractor: Fletcher Construction | Glass and Glazing: Woods Glass

ENGINEERED, TO WORK

Thermosash Unitised™ building envelopes are designed to work as one unified system – why build a façade from pieces and parts.

Our curtainwalls, louvers, windows, shopfronts, skylights and integrated elements are engineered to work together.

We believe it makes buildings better, saves you time and reduces your risk - it just makes more sense.

At Thermosash we engineer, independently test, manufacture, install and warrant. Made right here - since 1973
