

INDIVIDUALLY EACH DOES ITS JOB WELL... TOGETHER, A SPECTACLE OF INTEGRATION

Our people are just like our unitised building envelope solutions - they all perform perfectly on their own yet together they create façade solutions that are unequalled and integrate seamlessly.

At Thermosash we are passionate about collaborating with Architects and Engineers to design, manufacture and Install specific design world-class engineered façade solutions.

Our curtainwalls, unitised panels, commercial windows, shop fronts, skylights, ACM cladding, glass and integrated solar shading are not approached as pieces and parts, instead they are engineered, independently tested, locally manufactured, glazed and installed, all under one company - all since 1973
