Victoria University The Hub, Wellington

## KEEPING THE OUTSIDE, OUTSIDE

It sounds like a simple concept, but a philosophy that we have held true for over 40 years manufacturing in New Zealand, for New Zealand conditions and our export markets. Our UNITISED™ PW1000 thermally improved suite manages heat, cold, high humidity environments, withstands water and wind on the outside, yet maintains occupant comfort on the inside.

Our curtain walls, UNITISED™ modular exterior cladding panels, commercial windows, shop fronts, ACM cladding, and integrated solar shading are not approached as pieces and parts. Instead we collaborate with the design teams to create a specifically designed prefabricated suite - engineered, independently tested, locally manufactured, glazed and installed - all since 1973.

**Made right here - your New Zealand design and manufacture solution partner.**
