

University of Auckland, Medical School – Boyle Building

MAJOR SURGERY, FACE LIFT OR A TRANSPLANT?

If you were contemplating surgery you'd expect a great deal of planning, coordination and expertise. We approach the building envelope the same way. Not as pieces and parts; instead we collaborate with the design teams. We engineer, test, manufacture, glaze and install curtain walls, windows, shopfronts, skylights, glass and integrated solar shading elements as one seamless integrated unit.

When you're ready to see a specialist call Thermosash: your New Zealand building envelope design and manufacture solution partner since 1973.
