TRUST

As a family business, trust is ingrained in our teams shared commitment to our company values. We do not take for granted that Architects and contractors have placed their trust with us for over 48 years – to engineer, manufacture and install specific design façade solutions, nationwide and internationally. We believe this achievement is a testament to the engineering and build-quality of our systems and the strength of relationships within our teams and with our clients.

A Thermosash solution offers increased value, performance and durability - our engineered solutions speed up enclosure programmes, save time and reduce risk. It simply makes buildings better.

Trusted locally since 1973
