

Project: Sofitel Hotel Wellington | Main Contractor: Dominion Constructors | Glass and Glazing: Woods Glass

## A THERMOSASH FAÇADE LETS YOU SLEEP WELL AT NIGHT

When it comes to specific design façade acoustics and thermal performance, not all commercial window suppliers are equal. If you are specifying a façade for a hotel, apartment building, hospital or commercial office, Thermosash has unitised curtainwall, commercial window, door and shopfront system solutions to suit your project.

At Thermosash we engineer, independently test, manufacture, install and guarantee the installed end product – we believe that those who specify, operate and occupy should have a façade system that provides absolute peace of mind – and a peaceful sleep.

**Your New Zealand design and manufacture solution partner – since 1973**
