

ASB, North Wharf Auckland - Fletcher Construction / Jasmex / BVN

DEFINITELY A BIGGIE

We approach the building envelope holistically, in collaboration with the design teams, not as pieces and parts. We engineer, test and locally manufacture, glaze and install curtainwalls, windows, shopfronts, skylights, glass and integrated solar shading elements.

It all adds up – the planning, coordination and expertise into one accountable envelope solution.

Thermosash has been taking pride in turning concepts into reality since 1973.

'High five' to the team!
