## COMPROMISE IS A THING OF THE PAST

Our Sierra Apartment Suite has been specifically engineered for medium to high-rise apartment buildings, where larger spans, big sliders and attenuation from environmental noise are needed for optimal day-to-day living and occupant wellbeing. The aesthetically designed Sierra Apartment Suite can withstand higher wind loads, is resilient to building movement, and has improved weathertightness. No longer do you need to compromise when you demand performance from your windows.

Our world-class Unitised™ curtainwall, commercial windows, shop fronts, sliding doors and bespoke external elements actualise your vision and ensure a high-performance façade and glass solution that will stand the test of time.

**Specify Thermosash – it simply makes buildings better, saves you time, and reduces your risk.**
